PROFESSIONAL SUMMARY

A highly motivated and detail-oriented computer science major with experience in developing software solutions, debugging, and troubleshooting technical issues, and collaborating with cross-functional teams. Strong programming skills in multiple languages including Python, SQL, C#, and C++. Proficient in data structures, algorithms, and software development. Familiar with machine learning, databases, and web development. Strong analytical and problem-solving skills, and an ability to work well both independently and in a team environment. Eager to learn and apply new technologies to real-world problems as an entry-level computer scientist.

EDUCATION

B.S. in Computer Science, December 2022 (GPA: 3.67)

Middle Tennessee State University, Murfreesboro, TN

B.S. in Allied Health Science, May 2020 (GPA: 3.46)

Minor: Psychology

Middle Tennessee State University, Murfreesboro, TN

A.S. in Health Sciences, May 2017 (GPA: 3.52)

Nashville State Community College, Nashville, TN

COURSE PROJECTS

Neural Networks: CNN based GeoGuesser for location detection (Python, Keras)

Software Engineering: Custom camera video feed retrieval, control, and capture (C#)

Database Management: E-commerce online website implementation (SQL, Python, HTML, XAML)

Computer Graphics: Designed 3D virtual environment for conceptualizing (JavaScript, OpenGL)

Visual Programming: Game logic implementation and game development (C#)
